RE: Drainage District 88 Assessment Report

Mr. Goetsch:

I have completed my review of the assessment report for Dodge County Drainage District 88 prepared by DesignTech Engineering. This report was submitted to comply with section 88.35, Wisconsin Statutes. The Department of Agriculture, Trade and Consumer Protection (DATCP) hereby approves this report.

The Dodge County Drainage Board must now hold a hearing to hear objections and to make modifications to the report. The board may then finalize the report and proceed with any work in the district. I would like to call particular attention to the additional measures, as outlined in the report, meant to stabilize the proposed grass waterway. In light of past conflicts over such issues I cannot stress enough how important it is for the Board to take these recommendations seriously.

If you have any questions you may contact me at the phone number listed below.

Best regards,
