Re: Dodge County Drainage District No. 88

Dear Mr. Prunuske:

Thank you for your letter of March 20th with details of revisions to engineering plans for the drain system layout of Drainage District No. 88. We also reviewed the March 15th letter from Montgomery Associates with an evaluation of the proposed modifications of drain layout.

Messrs. Montgomery and Settersten conclude that the proposed drain revisions will provide improved runoff water quality compared with existing conditions at the District outlet and beneficial to streams, marshes and lakes downstream.

We find the drain system revisions detailed in your letter and verified by Messrs. Montgomery and Settersten meet the terms of the 2011 *Dodge County Drainage District 88 Settlement Agreement*.

We appreciate your work to craft an engineering solution that meets the needs of the District petitioners while offering protection of surface water quality.

Sincerely,

For the Board of Commissioners,

Gregory M Farnham

Gregory M. Farnham
Commissioner
